Dear the Federal Court

Freedom of Information Act

This letter and all these U.S. Government documents will explain very clearly why I Cathy Toole am filing lawsuit against the U.S. Government. Yes I am Cathy Toole the legal wife of James Luther Toole (the deceased veteran). Yes Vicky Lynn Toole and Rachel Lynne Toole are the legal daughters of James Luther Toole (the deceased veteran) by blood. Was my husband James Luther Toole in the National Guard? Yes. Was my husband James Luther Toole in the U.S. Army? Yes. Was my husband James Luther Toole in the U.S. Army Reserves? Yes. What does it take for an individual to become a veteran? Proof of being in the U.S. Military. Who make any determination? A VA Regional Office. Where does the Department of the Army and the VA Regional Offices retire or send their records to?

2

The National Archives and Records Administration. If all of my husband's military personnel records were honestly destroyed in the fire on July 12, 1973 at the National Personnel Records Center. How did Dr. Faget report my husband as totally disabled on Jan 3, 1976? Which is two and a half years after the fire happened. Now read the letter from the National Personnel Records Center dated Oct 27, 2000. This letter proves that the VA render my husband (the veteran) permanently and totally disabled. This permanently must go back to Jan 3, 1976. How can they say my husband drew a non-service connected Pension from the VA. How can the VA then say my husband was 40% service-connected. I have proof that my husband was in the National Guard from July 1952 to Nov 1952 and I do not have no Form 22 on this. Then my husband was in the Ala National Guard.

3

Then my husband was in the U.S. Army for four months and eleven days for training in 1954. Where is the other ten months and ten days of service location that nobody else can identify? Then I have proof that my husband was in the U.S. Army Reserves on Active Duty from July 20, 1958 to Aug 3, 1958. Then my husband Ret April 1, 1959. What does Ret stand for? Retired. How can you dispute Webster's Dictionary's definition? Where is the certificate that proves my husband retired April 1, 1959? Think about this! How could my husband have been in the U.S. Army just four months and eleven days in 1954 plus on active duty for fifteen days in 1958? Next read my husband's birth certificate. When was my husband born? Feb 28, 1936. Read one of the DD 214's. When was my husband born on one of them? Feb 28, 1956. Think about this! How did my

4

husband enter the U.S. Army Feb 11, 1954 if he was not born until Feb 28, 1956? Think about all of this! Read my husband's birth certificate. What race was both of my husband's parents? White. If both of my husband's parents was white. What race does that make my husband James Luther Toole? White. Next go to the two VA Medical Records. One of the copies is dated Sept 16, 1989. This document has my husband's name, and social security number on it. This document states that my husband's race is black at the age of fifty two. Then read the other copy. It has my husband's name and social security number on it. This document states that my husband was a well developed, well nourished obese, unkempt black male in mild respiratory distress. Next read my husband's death certificate. It has my husband's

5

name and social security number on it. Attention! What was my husband James Luther Toole's race at the time of his death on Dec 6, 1997? White. Yes Cathy Toole demand the VA to explain to me Cathy Toole and the judge how my husband changed from white to black and back to white to die. While they are sworn in under Oaths. [Next Step: Read the Clinical Record dated Sept 21, 1954. This document has my husband's name, and VA Claim Number on it. This document states that the veteran alleges he was struck by M-1 rifle in basic training about the left ear. Think about this! If my husband's left ear was not honestly injured. Why was there a diagnosis made and medicine prescribed? Next Step: Read the U.S. Army document dated Oct 8, 1954. This document has my husband's name, service number, and VA Claim Number on it. This document proves that my husband's right ear was injured.

6

The right ear injury was even ordered by the Secretary of the Army. Next Step. Read the VA Medical Record dated Feb 20, 1997. This document has my husband's name, social security number, and VA Claim Number on it. Read about the ears. Scarred right tympanic membrane with debris in right canal. Think about this! What is debris? The remains of something broken down or destroyed. How hard did my husband have to be hit with the rifle but in order to destroy his right ear? Where is an entire copy of the service medical records that James Luther Toole and the Dispensary created in May of 1954? Read the Medical Record dated Aug 27, 1979. Read the eyes. One len was 200 and one len was 300. How did my husband become so blind? If my husband was always that blind. How would he have passed the physical to join the National Guard? Next Step. Read the VA Medical Record dated Dec 3, 1977.

This document has my husband's name, social security number, and VA Claim Number on it. Read number two. What caused my husband to have Epilepsy? The symptoms from the stroke caused from the cerebral vascular injury. How would my husband have ever passed the physical to join the National Guard if he always took seizure medicines? Read the VA Medical Record dated May, 1980. For the list of medicines that my husband took. Next Step. Read the Medical Record dated Dec 26, 1978. This was to the Chief of Staff. (Neurology Consult) Where are the medical records with the head trauma treatment on them and the facial fracture and nasal packing on them? [Attention! Read the Death Certificate again. Why? What caused my husband's death? A Heart Attack. Was there an autopsy done on my husband at the time of his death? No. I demand to find out what caused my husband's heart attack.

If that is what the cause of his death honestly was, Next Step, Read the VA Medical Record dated Aug 30, 1996. Read the Summary! A several month history of otorrhea and middle ear disease. What does several mean? Indefinite. What does indefinite mean? Uncertain. Cathy Toole demand to find out how long my husband had the history of otorrhea and middle ear disease for? Not uncertain. Cathy Toole demand the VA to prove to me Cathy Toole if it was not the history of otorrhea and middle ear disease that caused my husband's death. Next Step. Read the US Government document dated June 17, 1954. This document has my husband's name, and service number on it. This document proves that each individual will be given a (DD 214) and a (DD Form 217a). Next Step. Read the letter from the State Military Department. That letter is dated Dec 10, 2004. Go to question number six. C

9

requested a copy of the DD Form 217A. And Mark Bowen told me that it does not exist or is obsolete. Think about this! How was this list of individuals and my husband given a DD Form 217A in June of 1954? If the DD Form 217A did not exist then? Attention! Next Step! Read the three VA Medical Records. Why did my husband have three different social security numbers? One 424-46-7646 Two 424-42-7646 Three 424-42-7647. Next Step! Read the U.S. Government document dated May 17, 1953. This document proves that my husband was in the Operations and Intelligence Sections - Sectional Training. This document has my husband's name as James H. Toole on it and my husband's service number on it. Next Step! Read the letter from the Central Intelligence Agency dated Feb 15, 2001. Think about this! The Information Review Officers directed that a thorough search be conducted of those records systems which could

10

reasonably be expected to contain documents responsive to your request. Could reasonably is a yes answer. Where is an entire copy of the records that James Luther Toole and the Central Intelligence Agency created after the U.S. Government declassifies them? Next Step! Read the U.S. Government documents from the VA Regional Office. This document has my husband's name, service number, VA Claim Number, and social security number on it. Think about this! Read the top section. Why? Read where it says veteran/Army. Then read the next section. Why? Read where it says veteran/Branch Unknown. Why is that branch unknown? I Cathy Toole am determined to find this out in the Federal Court Room. Next Step! Read all the U.S. Government documents with the service number 24606290 on them, then read the U.S. Government document dated March 10, 1954 with the service number N.G. 24606240 on it, then read the Clinical

11

Record dated Apr 12, 1954 with the service number N G 24605290 on it. How did my husband have three different service numbers? Has the U.S. Government been looking my deceased husband up under all three service numbers, not just one of them? Next Step! Read the U.S. Government documents dated May 17, 1953 and July 4, 1954. Think about this! The documents had the same service number. But my husband has two different middle initials. How did my husband end up getting a different middle initials? Yes! Cathy Toole sure can prove how many different branches of the Department of the Army, the National Guard, the Army Reserves, the National Archives and Records Administration, the VA Hospitals, and the VA Regional Offices that I have written to request many different kinds of records on my deceased husband James Luther Toole. And still have not received the records yet. The U.S. Government is violating the Open

12

Public Records Act Law. I Cathy Toole am very excited to find out how many of the individuals that work for the U.S. Government will be charged with violating the Open Public Records Act Law in the Federal Court Room. What caused all those little holes to form on my husbands body? The holes were on his face, neck, chest, back, under his armpits, on his arms, buttocks, and thighs. Some of the holes were larger than others. Yes I Cathy Toole am ready to enter the Federal Court Room to Petition the Government under the first Amendment of the United States Constitution. I Cathy Toole am ready to seek justice, to seek Freedom (the flag of the United States of America), and most of all seek Revenge. When I Cathy Toole Petition the Government, I want my case scheduled as soon as my case can be heard please. By any chance can my case be heard at the Federal Court House in Gulfport, Ms?

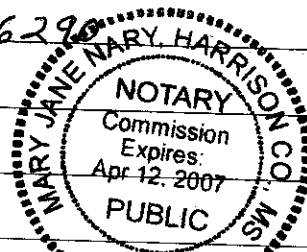

13

But if I have to come to the Federal Court House in Hattiesburg, Ms. I sure will. God has given me enough of knowledge to come as far as I have. And God sure is not going to forsake me now. Before I Lathy Toole get to enter the Federal Court Room with the U.S. Government. One more thing. Read my husband's death certificate again. When did the legal father of Vicky Lynn Toole and Rachel Lynne Toole die? Dec 6, 1997. Next step! Read Vicky Lynn Toole's Birth Certificate. When was Vicky Lynn Toole born? Feb 25, 1987. How old was Vicky Lynn Toole when her father died? Ten years old. Next step! Read Rachel Lynne Toole's Birth Certificate. When was Rachel Lynne Toole born? Feb 12, 1988. How old was Rachel Lynne Toole when her father died? Nine years old. My husband had not been deceased long before I started writing letters to the U.S. Government. I have been

writing letters to so many U.S. Government places requesting my husband's records. Has the U.S. Government released me these records yet? No. While the U.S. Government has been withholding the records on my deceased husband from me. The U.S. Government has been neglecting two minor children to a deceased veteran. Only God and some of the individuals that work for the U.S. Government knows what the legal daughters of James Luther Toole has been honestly entitled to. If the U.S. Government would have produced the records and released them to me. So that I could have submitted the evidence. The legal daughters to James Luther Toole could have been getting their honest benefits. Think about this! If parents can be charged with child neglect. If the parents do not provide for their children correctly. Why can't the U.S. Government be charged with

15

child neglect for not releasing
 me an entire copy of my deceased
 husbands records so that my
 two daughters could get all their
 honest benefits that they have
 always been entitled to? Yes
 I Cathy Toole Demand a Jury Trial
 in Federal Court. If my case is
 not in the Federal Court Room.
 I Cathy Toole am giving you all
 just one chance then I will
 appeal my case to the next
 Court in line. I Cathy Toole am
 no longer going to be put through
 stress by the U.S. Government.
 Do you Judge think I Cathy Toole
 have enough of documents and
 letters that is false information
 to enter a jury with? yes or no
 I sure do think so. 374-1294
 VA Claim Number 18461486
 Social Security Number 24606296
